The application parameters affect the appearance of powder coatings. Some slight variations in finish may occur. This document is not contractually binding.

Fiji is our collection of popular RAL colors in a tough, scratch resistant textured finish.

Interpon D1036 is a range of durable polyester powder coatings specially designed for use on metal architecture.

Interpon D1036 Fiji colors meet the requirements of the leading quality labels and national standards, such as Qualicoat, GSB and BS EN12206.
